Sub: **Login problems due to changed environment of Data Centre.**

As you are aware that Data Centre services have been successfully migrated from IBM to TCS in May, 2014.

2. Post migration of hardware at Data Centre, users have reported difficulties in logging on to the ITD application. Such mega changeovers do encounter various issues but Directorate of System is making its all out efforts to improve the services in the next few days.

3. As per data collected from Data Centre, it is seen that only 413 users could log into the application on 28 May, 2014 but figure is now 2505 as on 03 June, 2014 and further while only 149 orders u/s 143(1) were passed on 28 May, 2014, a total of 9526 such orders were passed on 03 June, 2014.

4. It is also likely that users may encounter issues relating to performance of the application because the application will certainly require some tuning as it is on a new platform. In order to provide improved services, DGIT(S) has constituted a team to monitor these difficulties directly. Users can continue to login complaints as per existing method but if they wish to seek more support or not satisfied with the resolution, following escalation matrix may be followed for login issues in the next 2 weeks.

a. For complaints, the helpdesk may be contacted at the following number

   I) Toll free.... 1800110015, 1800110017
   II) Tel No.... 0120-2772828, 0120-2772829, 0120-2772830, 0120-2772831, 0120-2818043

b. In case the problem is not resolved at the above levels, user can also contact the following designated TCS personnel:
