

Restructuring of the Income Tax Department

The Union Cabinet today(23.05.2013) approved the proposal for creation of 20,751 additional posts in the Income Tax Department in various cadres that is 1349 additional posts in the IRS cadre and 19,402 additional posts in the non-IRS cadres. This will help the Income Tax Department collect increased revenue and provide better tax payers services.

An additional expenditure of Rs. 449.71 crore per annum is likely to be incurred on creation of additional posts and upgradation of some existing posts. This additional expenditure would be more than compensated by the increased revenue of more than Rs. 25,000 crore per annum proposed to be generated as a result of this exercise.
